

## **EXCLUSIVE CRAYFISH KNIVES FOR WILD GOURMET CRAYFISH PARTIES**

We have ordered from a local artisan and talented roamer of the wild forests, Olli Antikainen from Kuhmo, Northern Karelia (<http://www.pajan.com/index.html>), a special set of crayfish knives to celebrate the IAA 17 symposium. The set of four knives and a table stand, all wooden and handmade, will be available for IAA 17 delegates during the symposium. There will be a limited number of sets available and those interested in buying this exclusive set are asked to make pre-orders and enquiries to Japo Jussila.

The set has been made of heat treated birch and common ash, with four crayfish knives of traditional design (A). The top of the table set becomes loose for catering of the crayfish knives (B). The crayfish knives will be labelled with IAA17 letter logo (C), so that Kuopio crayfish symposium would be remembered at least during and even towards the end of wild crayfish parties.

The price for the four crayfish knife set and the stand is 55 €.
